Portfolio: <https://myp0rtf0lioo.netlify.app/>

Summary

Information Technology undergraduate with experience in building AI-powered applications using Python, React.js, Node.js, and Google Gemini API. Developed projects involving code review automation, recommendation systems, and full-stack web development. Strong foundation in Data Structures, Algorithms, OOP, DBMS, and REST APIs. Seeking Software Development Engineer opportunities.

Education

Bachelor of Engineering (Information Technology) International Institute of Information Technology, Pune.	<i>SGPA: 8.95</i>	Aug 2023 – Jun 2027
---	-------------------	---------------------

HSC: Maharashtra State Board	<i>Percentage: 78.0%</i>	Jun 2022 - Mar 2023
-------------------------------------	--------------------------	---------------------

SSC: Maharashtra State Board	<i>Percentage: 81.2%</i>	Jun 2019 - Mar 2020
-------------------------------------	--------------------------	---------------------

Projects

AI Code Review & Bug Detection Platform

- Built an AI-powered code review application using Python, Streamlit, and Google Gemini API to analyze source code across multiple programming languages.
- Integrated Large Language Model (LLM) APIs for bug detection, code optimization, complexity analysis, and automated test case generation.
- Enabled file uploads and PDF report generation, providing instant AI-driven feedback to improve code quality and programming skills.

AI-Based Music Recommendation System

- Developed a music recommendation system using Machine Learning and content-based filtering techniques to provide personalized song recommendations.
- Applied Natural Language Processing (NLP) to analyze music metadata and improve recommendation accuracy.
- Designed and developed the frontend and backend using React.js, Node.js, and Express.js, delivering a seamless user experience.

Technical Skills

- **Languages:** Python, Java, JavaScript (ES6+), C++, SQL
- **Frontend:** HTML, CSS, React.js
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, MySQL
- **Tools:** Git, GitHub, VS Code, Streamlit, Google Gemini API
- **Concepts:** REST APIs, OOP, Data Structures & Algorithms, Operating Systems, DBMS
- **Deploy:** AWS, Netlify

Achievements & Certifications

- **Oracle Agentic AI Foundation-** Certified in OCI, Agentic AI concepts.
- **Cisco Networking Academy** – Introduction to Cybersecurity
- **Tata (Forage)** – GenAI-assisted data analysis and business insights.
- **Deloitte:** Data Analytics Job Simulation.
- **SAP** – Fundamentals of ABAP and SAP development.
- **Participated in Smart India Hackathon (SIH)**, contributing to the KrishiTech project.

Extra Curriculars & Interests

- **Public Relations Committee Member** – Coordinated and managed college events.
- Skilled in playing Tabla.
